01 Profile

I'm a front-end engineer with full-stack experience, who has spent 8 years working on a high-traffic SaaS public web platform. My main focus was public website, signup, CMS and our shared component library, where I was one of the main contributors.

In the last 2 years I led Pipedrive's public-web accessibility initiative through two mission-scale efforts. I scoped them, made the business case, prioritized WCAG audit findings, coordinated teams and shipped many of the fixes myself.

I also led the engineering side of web experimentation and was voted "Experimenter of the Year" in a company-wide vote.

02 Experience

Pipedrive 2018 – 2026

Software Engineer Jan 2022 – Dec 2026

Junior Front End Developer Apr 2019 – Dec 2021

Front End Developer Intern Dec 2018 – Mar 2019

ACCESSIBILITY MISSION LEAD & ENGINEER

- Led two company-wide accessibility initiatives across Design, Web and Marketplace, from business case to fixes.
- Resolved nearly 60 high-impact WCAG 2.2 AA issues for EAA compliance, from signup flows to pricing tables.
- Built accessibility into the CMS and design system and wrote a 15-part "Accessibility Bites" series.

ENGINEERING LEAD

- Coordinated the engineering side of A/B experimentation, shipping reliable tests with fewer defects.
- Turned winning experiments into roadmap work, resolved Optimizely conflicts and guided weekly engineering syncs.
- Wrote the Optimizely handbook and mentored new colleagues.

CONTENT PLATFORM & CMS ENGINEERING

- Built Craft CMS features and renderers for the main site, signup and Knowledge Base, including localization.
- Created reusable SEO content-hub templates with structured data and contributed to Core Web Vitals work.

DESIGN SYSTEM

- Major contributor to the shared library of accessible components, working with designers from the start.

Vali IT! course 2018

Student · 4 months course + 2 months internship

MIHO OÜ 2016 – 2018

Technician / AutoCad draftsman · Construction technical drawings with AutoCad

Ericsson Estonia 2007 – 2016

Database administrator · AutoCad drawings and database administration tasks

03 Skills

Front-end
HTML, CSS, JavaScript, TypeScript, React, Next.js

Accessibility
WCAG 2.2, ARIA, VoiceOver

Design systems and CMS
Component libraries, Craft CMS integration

Growth and SEO
A/B experimentation (Optimizely), SEO and Core Web Vitals

Operations
Observability and alerting (Grafana, Loki)

AI-assisted development
Claude Code, GitHub Copilot, custom subagents and skills, AI-assisted code review and testing

Leadership
Mentoring, code review, technical leadership

Design
Illustrator, Photoshop, InDesign

04 Education

Graphic design, additional training
Estonian Academy of Arts, Open Academy
2010 – 2012

Master of Science, telecommunications, cum laude
Tallinn University of Technology
2008 – 2010

Bachelor of Science, telecommunications, cum laude
Tallinn University of Technology
2004 – 2007

05 Languages

Estonian (native), English

06 Interests

Cycling, bikepacking, motorcycle touring, snowboarding, running, swimming, reading, board games
